

## PRODUCT SHEET - HEADWALL

### PRODUCT DESCRIPTION

The Variopool headwalls are usable for professional use and fully comply to the standards and requirements imposed by the FINA. In accordance with the latest European standards, the headwall closes the solid wall so there is no chance swimmers can swim through the headwall.

The professional design of the wall has proven itself already. It's possible to install starting blocks and competition lines on the headwall. Beside that they are designed strong enough to capture the forces of the swimmers when they jump of the starting blocks.

### TECHNICAL SPECIFICATIONS

Material construction stainless steel 316L frame structure (stained and passivated)

Material finish Polypropylene sheets 20 mm thick fitted with integrated perforation

Max. 200 kg / m<sup>2</sup>

Color polypropylene White (RAL 9010)

Length: 25.0 m

Width: 1.0m

Height: 0.3m
